INDEX

Volume II, 1960

Scientific names and titles of books are printed in italics and personal names in capitals

	page
Avocado pears, U.K. market for	103
Bananas, a review of the market and world trade in	154
Bananas, by SIMMONDS, N. W. (Review)	229
BAXTER, G. D., Control of jute pests and diseases in British Guiana	36
Bibliographies	109, 173, 231
British Guiana	
experiments in the cultivation, harvesting and retting of jute in	1
control of jute pests and diseases in	36
Botany, An Introduction to Plant Science, by ROBBINS, W. N., WEIER, T. E., and STOCKING, C. R. (Review)	227
Cacao Beans from Tanganyika	224
Caryedon gonagra (F.), field trials on the control of	44
Chemistry and Technology of Cereals as Food and Feed, by MATZ, S. A. (Review)	227
CHITTENDEN, A. E., EDWARDS, Miss E. E. L., and PALMER, E. R., pulping trials on *Ricinodendron rautanenii* from Northern Rhodesia	72
CHITTENDEN, A. E., and PALMER, E. R., pulping trials on three species of pine from Mauritius	82
CHURCH, B. M., investigation into sampling dried pyrethrum flowers from bulk	200
Combustion, spontaneous, of oilseed and oilcake	166
Copra from Tonga, visual examination using grading table	219
CROWTHER, P. C., and SMITH, E. H. G., dates from the Eastern Aden Protectorate	90
Cyprus, destructively distilled turpentine from	97
Dates from the Eastern Aden Protectorate	90
DAUBNEY, C. G., and HYDE, Miss M. B., study of grain storage in fossae	115
Decortication, effect of on infestation of groundnuts by *Tribolium castaneum*	130
Dehydration of foods, developments in	184
EDWARDS, Miss E. E. L., CHITTENDEN, A. E., and PALMER, E. R., pulping trials on *Ricinodendron rautanenii* from Northern Rhodesia	72
EDWARDS, Miss E. E. L., and HOWARD, G. E., destructively distilled turpentine from Cyprus	97
Eastern Aden Protectorate, dates from	90
Empire and Commonwealth Year Book, Ed. RUSSELL, R. S. (Review)	107
Essential Oils	
exports from British Colonies 1953-58	99
exports from Commonwealth countries 1953-58	101
Fertilizer Use: Nutrition and Manuring of Tropical Crops, by JACOB, Dr. A., and UEXKULL, Dr. H. V. (Review)	171
FFRENCH-MULLEN, M. D., experiments in the cultivation, harvesting and retting of jute	1
FORREST, J. C., and GOODING, E. G. B., developments in the dehydration of food	184
Fossae, study of grain storage in	115

Gambia, control of insect infestation after harvest: *page*
II the Groundnut borer, *Caryedon gonagra* 44
III *Tribolium castaneum* and other pests 130
IV the practical application of control measures 134
GOODING, E. G. B., and FORREST, J. C., developments in the dehydration of foods 184
Grading table, used in visual examination of copra 223
Grain, storage in fossae in Malta 115
GREEN, A. A., control of insects infesting groundnuts after harvest:
II the Groundnut borer, *Caryedon gonagra* 44
III *Tribolium castaneum* and other pests 130
Groundnuts, control of insects infesting after harvest:
II the Groundnut borer, *Caryedon gonagra* 44
III *Tribolium castaneum* and other pests 130
IV the practical application of control measures 134

Hardboard, production of, from tropical timbers 64, 140
HOWARD, G. E., and EDWARDS, Miss E. E. L., destructively distilled turpentine from Cyprus 97
HYDE, Miss M. B., and DAUBNEY, C. G., study of grain storage in fossae . 115

Introduction to Agricultural Economic Analysis, by BISHOP, C. E., and TOUSSAINT, W. D. (Review) 171

Jute
experiments in the cultivation, harvesting and retting of . . . 1
control of pests and diseases of 36
varieties from Sudan 167

Kapur (*Dryobalanops* spp.), production of hardboard from 140
KAY, Mrs. D. E., and SMITH, E. H. G., production and world trade in fresh pineapples 55
KAY, Mrs. D. E., and SMITH, E. H. G., a review of the market and world trade in bananas 154
Keruing (*Dipterocarpus* spp.), production of hardboard from 140

Malta, study of grain storage in fossae in 115
MATTHEWS, W. S., and PICKERING, G. B., patchouli from the Seychelles . 93
Mauritius, pulping trials on pine from 82
Mugongo
production of hardboard from 64
pulping trials on 72

Oilseeds and oilcake, spontaneous heating and combustion of . . 166

PACKMAN, D. F., production of hardboard from tropical timbers:
V Mugongo (*Ricinodendron rautanenii*) 64
VI Kapur (*Dryobalanops* spp.); Keruing (*Dipterocarpus* spp.), Red Seraya (*Shorea* spp.), and White Seraya (*Parashorea plicata*) . 140
PALMER, E. R., CHITTENDEN, A. E., and EDWARDS, Miss E. E. L., pulping trials on Mugongo (*Ricinodendron rautanenii*) 72
PALMER, E. R., and CHITTENDEN, A. E., pulping trials on three species of pine from Mauritius 82
Patchouli from the Seychelles, samples examined 93
Pears, avocado, U.K. market for 103
Perfumes, Cosmetics and Soaps, Vols. II and III, by POUCHER, W. A. (Reviews) 107, 228
PICKERING, G. B., and MATTHEWS, W. S., patchouli from the Seychelles . 93
Pine from Mauritius, pulping trials on 82
Pineapples, fresh, production and world trade in 55

Potato Processing, by TALBURT, W. F., and SMITH, O. (Review) . . 106
Pyrethrum, sampling dried flowers from bulk 200
Plants and Environment. A Textbook of Plant Autecology, by DAUBENMIRE, R. F. (Review) 229

Ricinodendron rautanenii (Mugongo)
production of hardboard from 64
pulping trials on 72
RYNEHART, T., control of insects infesting groundnuts after harvest in the Gambia: the practical application of control measures 134

Seraya, red (*Shorea* spp.) and white (*Parashorea plicata*), production of hardboard from 140
Seychelles, patchouli from 93
SMITH, E. H. G., and KAY, Mrs. D. E., production and world trade in fresh pineapples 55
SMITH, E. H. G., and KAY, Mrs. D. E., review of the market and world trade in bananas 154
SMITH, E. H. G., and CROWTHER, P. C., dates from the Eastern Aden Protectorate 90
Sudan, varieties of jute from 167

Tanganyika, cacao beans from 224
Tonga, copra from 219
Tribolium castaneum, the infestation of groundnuts by 130
Turpentine, destructively distilled 97

United Kingdom Meat Trade Annual and Directory of Animal By-Products (Review) 106

Wealth of India. Raw Materials. (H-K). Ed. SASTRI B. N., (Review) . 168

Contents

ARTICLES *page*

Experiments in the Cultivation, Harvesting and Retting of Jute in British Guiana. By M. D. ffrench-Mullen 1

The Control of Jute Pests and Diseases in British Guiana. By G. D. Baxter, *Berbice Fibre Research Company Ltd.* 36

The Control of Insects Infesting Groundnuts after Harvest in the Gambia: II. Field Trials on the Control of the Groundnut Borer, *Caryedon gonagra* (F). By A. A. Green, *Pest Infestation Laboratory* . 44

The Production and World Trade in Fresh Pineapples. By Mrs. D. E. Kay and E. H. G. Smith 55

The Production of Hardboard from Tropical Timbers: V. Mugongo (*Ricinodendron rautanenii*). By D. F. Packman, *Forest Products Research Laboratory* 64

A Study of Grain Storage in Fossae in Malta. By Mary B. Hyde *Pest Infestation Laboratory*, and C. G. Daubney, *Department of Trade and Industry*, Valletta 115

The Control of Insects Infesting Groundnuts after Harvest in the Gambia: III. The Effect of Decortication on the Infestation of Groundnuts by *Tribolium castaneum* (Hbst) and other Insects. By A. A. Green, *Pest Infestation Laboratory* 130

The Control of Insects Infesting Groundnuts after Harvest in the Gambia: IV. The Practical Application of Control Measures. By T. Rynehart, *Department of Agriculture*, The Gambia . . . 134

The Production of Hardboard from Tropical Timbers: VI. Kapur (*Dryobalanops* spp.), Keruing (*Dipterocarpus* spp.), Red Seraya (*Shorea* spp.), and White Seraya (*Parashorea plicata*). By D. F. Packman, *Forests Products Research Laboratory* 140

A Review of the Market and World Trade in Bananas. By Mrs. D. E. Kay and E. H. G. Smith 154

Developments in the Dehydration of Foods. By E. G. B. Gooding and J. C. Forrest, *Ministry of Agriculture, Fisheries and Food* . . . 184

CONTENTS

Sampling Dried Pyrethrum Flowers from Bulk. By B. M. Church, *Rothamsted Experimental Station* . . . . . *page* 200

REPORTS OF RECENT INVESTIGATIONS AT THE TROPICAL PRODUCTS INSTITUTE

Pulping Trials on *Ricinodendron rautanenii* Timber from Northern Rhodesia. By A. E. Chittenden, Miss E. E. L. Edwards and E. R. Palmer 72

Pulping Trials on Three Species of Pine from Mauritius. By A. E. Chittenden and E. R. Palmer 82

Dates from the Eastern Aden Protectorate. By P. C. Crowther and E. H. G. Smith 90

Patchouli from the Seychelles. By W. S. Matthews and G. B. Pickering 93

Destructively Distilled Turpentine from Cyprus. By Miss E. E. L. Edwards and G. E. Howard 97

Exports of Essential Oils from the British Colonies for 1953-58 . . 99

Exports of Essential Oils from the Commonwealth Countries for 1953-58 101

Copra from Tonga. By W. D. Raymond and P. S. Beevor . . . 219

NOTES

The United Kingdom Market for Avocado Pears 103

Spontaneous Heating and Combustion of Oilseed and Oilcake . . 166

Sudan Jutes 167

Cacao Beans from Tanganyika 224

BOOK REVIEWS 106, 168, 227

BIBLIOGRAPHIES 109, 173, 231

INDEX TO VOLUME II 236

LIST OF PLATES

Experiments in the Cultivation, Harvesting and Retting of Jute in British Guiana

		page
Plate XIII		
The modified Elcom ribboner	*facing*	4
Plate XIV		
Lowering nests of grids into retting tanks	*facing*	4
Plate XV		
Loading grids with ribbon	*between* 20 and 21	
Plate XVI		
An empty 110 ft. retting tank showing aeration pipes	*between* 20 and 21	
Plate XVII		
Aeration of retting tank	*between* 20 and 21	
Plate XVIII		
Washing sluice in operation	*between* 20 and 21	
Plate XIX		
In-take end of washing sluice showing strick moving along bar down inclined feed table	*between* 20 and 21	
Plate XX		
Take-off end of washing sluice	*between* 20 and 21	
Plate XXI		
Lines for drying ribbons of fibre	*between* 20 and 21	
Plate XXII		
Baled jute	*between* 20 and 21	

The Control of Jute Pests and Diseases in British Guiana

Plate I		
Stem damage by *Epitrix parvula*	*facing*	36
Plate II		
Leaf 'crinkle' caused by *Hemitarsonemus latus*	*between* 36 and 37	
Plate III		
Death of growing point in *C. capsularis* after a heavy attack of *Hemitarsonemus latus*	*between* 36 and 37	

PLATES

PLATE IV — *page*

Stem attacked by *Diplodia corchori* . . . . . *between* 36 and 37

PLATE V

Stem canker caused by *Macrophomina phaseoli* . . *between* 36 and 37

PLATE VI

Jute plants killed by *Macrophoma corchori* . . . *between* 36 and 37

THE CONTROL OF INSECTS INFESTING GROUNDNUTS AFTER HARVEST IN THE GAMBIA:

II. FIELD TRIALS ON THE CONTROL OF THE GROUNDNUT BORER, *Caryedon gonagra* (F.)

PLATE I

The application of insecticidal spray to a partly-constructed, large heap of groundnuts. Completed heaps are shown in the background . . . . *facing* 44

PLATE II

Small heaps of groundnuts used for comparison of surface treatments . . . . . *facing* 45

A STUDY OF GRAIN STORAGE IN FOSSAE IN MALTA

PLATE I

The Floriana granaries. General view, showing rows of fossae with stone covers. (Note structure for housing testing equipment to the right of the experimental fossa in the foreground) . . . . . *facing* 118

PLATE II

The St. Elmo granaries. General view, showing empty fossa in foreground, with loose cover and full fossae behind, with sealed covers . . . . . *facing* 119

THE CONTROL OF INSECTS INFESTING GROUNDNUTS AFTER HARVEST IN THE GAMBIA:

III. THE EFFECT OF DECORTICATION ON THE INFESTATION OF GROUNDNUTS BY *Tribolium casteneum* (Hbst.) AND OTHER INSECTS

PLATE I

System of stacking bagged groundnuts for shipment in rotation according to period of storage . . . *facing* 132

PLATE II

A large stack of bagged groundnuts which cannot be shipped in rotation according to the period of storage *facing* 133

PLATES

Developments in the Dehydration of Foods

Plate I — *page*

Comparison of bulk density of cabbage in the raw state, with the same quantity dried and loosely packed in the tall can, and then compressed into two flat cans . . *between* 194 and 195

Plate II

Trimming operation on carrot with peeled vegetable in the outside lanes and trimmed material being discharged from the centre lane . . . . . *between* 194 and 195

Plate III

Vegetable cutting station in preparation line showing (*left and centre*) slicing, stripping or dicing machines for root vegetables and (*right*) two shredders for cabbage. These are fed by the overhead conveyor and discharged by the low level belts . . . . . *between* 194 and 195

Plate IV

Final stages of vegetable preparation line with washing machine (*left*) feeding the loading station where the product is weighed and spread on the drying trays. The trays are then fed on to the conveyor of the steam scalder (*right*) with mixing and pressurized feed tanks for dosing solutions mounted above . . . . *between* 194 and 195

Plate V

Scalded potato strips being loaded into the first cabinet of the four-stage hot-air drying plant. The second cabinet is seen on the right . . . . . *between* 194 and 195

Plate VI

Original three-cabinet hot-air dehydration installation. The cabinet on the left contains two trucks and the others eight trucks. The second eight-truck unit was finally replaced by a deep-tray through draught dryer and a new first stage cabinet was added to make the four-stage installation . . . . . *between* 194 and 195

Plate VII

Beef steaks loaded on Experimental Vacuum Equipment (EVE) drying tray with top sheet of expanded metal displaced to show the arrangement . . . . *between* 194 and 195

Plate VIII

AFD beef steaks showing imprint of expanded metal inserts. This disappears completely on reconstitution *between* 194 and 195

Plate IX

Internal layout of EVE showing the two heating plates with plate pressure jacking mechanism, and tray weighing scales opposite the viewing ports . . . *between* 194 and 195

Plate X

Mark I. Prototype AFD cabinet being loaded with pre-frozen raw cod steaks . . . . . *between* 194 and 195

PLATES

PLATE XI — *page*

AFD meat and vegetable stew (*left*) as dried and packed and (*right*) prepared for eating . . . . . *between* 194 and 195

PLATE XII

The reduction in volume obtained with compressed dehydrated cabbage is of value in the confined space of a submarine galley . . . . . *between* 194 and 195

PLATE XIII

AFD foods have been tested on expeditions all over the world. The plate shows Sir Vivian Fuchs and Sir Edmund Hillary preparing AFD products in Antarctica *between* 194 and 195
